LOVED this!!! Thank you for having such a wonderful speaker. Loving the book too. I definitely would recommend him speaking to my colleagues!!!

excellent choice for this year's conference just what we needed to hear at this time in health care and I could have listen to him for hours he had so much to say, I am glad that I went to the break out session too.

what more can i say, I could have listen to him for a long time. It is just what we need to hear at this point in the healthcare system.

Excelletn speaker and topic. Thanks for bringing him to the conference!

Super presentation. He has a great understanding of healthcare and the issues we are facing.  
 Excellent Speaker

Very entertaining, liked his presentation a lot, and really appreciated the free book! It's getting people to buy into this way of thinking that's so tough! But a super speaker!
Great but could have been 1/2 hour shorter.
He was a great speaker and very interesting.
Very entertaining. Excellent.
Excellent speaker...got me fired up!
thank you for the book
I had some difficulty with how this speaker presented himself, sold his program and waxed enthusiastic over his successes. Now, I will add that this may be a totally subjective response on my part. I do not know that Mr. Tye realized that his statement concerning depression that made it sound as if it were a character flaw rather than a devastating illness requiring knowledge, support, and wisdom to manage was quite disturbing.
Loved listening to him speak. He's very passionate about what he does
Excellent, very uplifting.
Great speaker, great presentation! Happy to receive his book as a bonus!
